

KESGRAVE HIGH SCHOOL – SAFEGUARDING

EARLY HELP OFFER

Safeguarding and promoting the welfare of all children is considered everyone's responsibility at Kesgrave. We also recognise the importance of supporting students through a comprehensive "Early Help" programme which focusses on providing early interventions to avoid the escalation of worries and needs. Early help means better outcomes for children and families and in being effective will resolve problems before they become overwhelming and require high cost, reactive services. Early help enables children to be ready for school and more likely to achieve their full potential. Kesgrave High School offers comprehensive support and guidance to ensure that the personal wellbeing of our students is catered for and that barriers to learning can be removed.

We recognise the importance of working with families in supporting young people and the importance of listening to the voice of the child in all that we do.
